GET TO KNOW MAN!

VISIT MAN – EXPERIENCE THE FUTURE OF AUTOMOTIVE ENGINEERING!

We invite you to explore the MAN plant, one of the world's leading manufacturers of commercial vehicles! See firsthand how modern trucks are built, discover cutting-edge technologies, and learn the secrets of vehicle production.

Join us and feel the passion for Engineering!

MAN- Driving the Future!

The plant in Niepołomice, near Kraków, is one of the youngest production facilities and an integral part of the manufacturing network of the MAN Truck & Bus SE Group. The plant was opened in October 2007 after nearly two years of construction. Its production range includes trucks from the TGS, TGX, TGM, and TGL series, assembled in various configurations as 2, 3, 4, and 5-axle vehicles. MAN Trucks Niepołomice supplies its products to markets in Europe, the Middle East, Asia, and Africa. Each year, tens of thousands of high-quality MAN vehicles are produced at this facility.
